1971 - 2021

Anniversary meeting in Fulda from 09.09. to 12.09.2021

***50 years of Morgan-Club
Deutschland e.V.***

1971 - 2021

**Dear members,
dear friends of the MCD.**

The Board and the RheinMain Section cordially invite you to our anniversary meeting in the baroque and episcopal city of Fulda.

Our club was founded in 1971 in Frankfurt a.M. and since the big city with its low emission zone is not so well suited for a meeting, we have moved to Fulda. It is located very centrally in Germany on the A7 between Kassel and Würzburg and at the foot of the Rhön. With the Esperanto Hotel we have found a great location that can cover all our requirements.

Unfortunately we can only return the unneeded rooms free of charge until 15.03.2021. Therefore we need your registration soon.

The Esperanto Hotel is located in the middle of the city, but still easy to reach from the A7. The castle is about 500 steps away. The website writes: „...The 4*Superior Hotel with its 326 rooms and suites welcomes you with a feel-good atmosphere with Mediterranean flair...

The main restaurant „El Jardin“ with a beautiful outdoor terrace and classic international cuisine, the wine bar „Bodega“ in Canarian style, the beer bar „Rustico“, the CaféBar „Piazza D'Oro“ with large red leather benches or the panorama bar „Buena Vista“ on the 6th floor. offer something special for every taste. Unique in the region is the Brazilian grill restaurant „Toro Negro“ on the upper floor with original Rodizio and a breathtaking view of the nearby Fulda city centre...“.

A pool also provides relaxation after an eventful day.

For more information, please contact Booking, HolidayCheck, or <https://www.kongresszentrum-fulda.com/>. In the parking garage opposite we have secured enough spaces for you.

1971 - 2021

Activities on Friday

We expect a high number of participants and therefore want to offer a wide range of guided tours, visits and activities.

1) Organ concert in the cathedral

About 1000m from the hotel is the cathedral. Here we have organized a small organ concert for you. The big organ sounds with Bach and also with beat. For about 30 minutes you will get something good the ears. No additional costs.

From here the further visits start

2) Fulda in a nutshell

During the one-hour city tour you will get a compact overview of the baroque city of Fulda. Baroque noble

palaces with castle and cathedral (outside visit) as well as the old town are the focus of the tour.

Duration approx. 1 hour.

3) The Chocolate Girl Castle Tour

The chocolate girl was an important person in the prince's kitchen. She was responsible for the production of the „new“ and precious drinks like „Thé“, „Caffé“ and „Chocolat“. These treasures, the production of which was secret, came to the princely courts of the 18th century and could only be served to the prince and his most important guests. Due to her position and responsibility in the kitchen and at court she has experienced many things and can excellently convey the attitude to life. Eating well and opulently has a long tradition. „Speise und Trank“, „Tischsitte“ and „Tafelgerät“ ...

1971 - 2021

with tasty passages from old recipes, inventories and letter sources the chocolate girl will whet your appetite for mind and senses. Together with the Chocolate Girl (actress in historical costume), you will immerse yourself in the lifestyle of the baroque era. The experience is complemented by delicacies related to the baroque period.

Duration approx. 1 hour.

Max. 50 persons, in case of great demand a 2nd group is possible at a later date.

4) Guided tour Cathedral and Old Town

The Cathedral and Old Town are the focus of this tour. The cathedral is Hessen's

most important baroque church.

Built in the 18th century by the famous master builder Johann Dientzenhofer, it is the third church on this site. You will learn interesting and worth knowing facts about the history of the bishop's church, the furnishings and the life and work of St. Boniface, whose grave is located in the cathedral.

A walk through the old town of Fulda rounds off the tour. Duration 1.5 hours.

5) Small Moggi excursion to Point Alpha

Here Russians and Americans faced each other eye to eye during the Cold War. A small museum offers interesting insights. For more details see <https://pointalpha.com/the-memorial-point-alpha>. There over the B27 and B84, 31km and back over the B278 and L3174, 43km = a small Rhön circuit with some German/German history.

1971 - 2021

6) The tour to the Kreuzberg monastery and the local monastery brewery

<https://klosterkreuzberg.de/> over the Wasserkuppe is similarly far, 37km to the beer garden with devilishly good monastery beer.

A map is in the Goody Bag.

7) „Only flying is more beautiful“: Sightseeing flight over the magnificent Rhön landscape

The Wasserkuppe, also called the mountain of the pilots, is with 950 m the highest mountain of Hessen.

Already in 1911 pioneers met here and glided over the slopes with self-built ad-

venturous flying machines. The Wasserkuppe is regarded as the birthplace of gliding due to pioneering work in the research and development of silent flying. Anyone who wants to experience the magnificent Rhön landscape from above can do so in a glider or motorised aircraft.

A 20-minute sightseeing flight in a glider with aerotow costs 80 €. Or 35 € per person with three flying enthusiasts in a motorized plane.

If you are interested we charter this experience

1971 - 2021

**Friday evening from 18:30 -
Now you have the agony of choice**

either to the „Toro Negro“. The grill restaurant on the 6th floor with a view over the roofs of Fulda radiates fiery charm. Churrascaria specialities, 7 types of meat are cut directly from the grill skewer onto your plate. Many spicy side dishes, crisp salads and desserts spoil the palate. This promises pure carnivorousness.

160 seats inside & 150 seats outside
(hopefully the weather will suit)

Or you can join us on the dinner hike

A 3-course menu at 3 different original locations in the near 1971 - 2021 area. Each course is accompanied by a glass of wine, beer or soft, as you like. An evening walk of a special kind. Delicious and digestible.

You will visit the Restaurant Ritter (venerable bourgeoisie), the Dianakeller in the Maritim Hotel (stately) and Kolpings Restaurant in the Parkhotel (rather modern).

The individual stations are a maximum of 15 minutes apart and are started in different groups and in different order.

1971 - 2021

Saturday - Moggi Driving Day

The Esperanto Hotel is located in the middle of the city. The advantage of being able to do a lot of things on foot is connected with the disadvantage that you can only reach the open countryside after a few traffic lights. A larger group of vehicles can therefore hardly stay together.

Because reading a road book is not for everyone and a real problem for a single driver, we want to serve you the routes according to your navigation system. You will receive your selection as an import file and/or as a route description with stopovers, so that you can enter the tours into your navigation system at home in peace and quiet.

So everyone can enjoy the trip without worries. The Navi will fix it.

On request, we can also print out a roadbook from the ADAC route planner for you.

A cost-saving hint: In the beautiful Rhön, the speed limits on the winding roads are checked quite often with stationary and mobile measuring devices. Our recommendation: follow the rules. Another thing: There are relatively few petrol stations in the beautiful Rhön. Our recommendation: make a stop at a petrol station in Fulda before exiting the motorway.

Have fun in the beautiful Rhön!

The green tour, Vogelsberg, 150 km

The Vogelsberg is a low mountain range in Hesse and the largest closed basalt massif in Europe with an area of 2500 km². Its highest point is the Taufstein (773 m), east of Schotten. The Hoher Vogelsberg Nature Park occupies large parts of its high elevations. From the hotel, the route heads south via **Schlüchtern** to **Hirzenhain**. Soon we have reached the Taufsteinhütte on the Hoherodskopf - our restaurant for the lunch break. The Hoherodskopf is with 763,8 m above sea level NHN the second highest peak in the low mountain range Vogelsberg. From the summit of the Hoherodskopf there is a far view as far as the Rhine-Main area and the Taunus Mountains.

In winter, Hessen's longest ski lift, 1.2 km long, runs on the mountain. Via **Engelrod and Kleinlüder** the route goes back to Fulda.

**The yellow tour, Kuppenrhön,
150 km**

This particularly charming circular route leads past the two highest elevations of the Hessian Rhön, the Wasserkuppe at 950 metres and the Milseburg at 835 metres. The trail leads us from the hotel first to **Eichenzell** and then on to **Dietershausen**. Opposite Hofbieber, as part of the Hessian Rhön Nature Park; on the right hand side is the extinct volcano Milseburg with the ruins of an Iron Age settlement. We continue via **Thann (Rhön)** to the Point Alpha Memorial. The memorial is in its entire complex an incomparable testimony of time and a unique place of learning about history.

Along with OP Romeo, OP India and OP Oscar, Point Alpha was one of four US observation bases on Hesse's inner-German border. Via **Eiterfeld** we will travel to **Hünfeld**, where we will have lunch at the Praforst Restaurant. From there it is only about 45 minutes to Fulda.

**Saturday, 11.09.2021,
day of the trips**

The Red tour, Thuringian Rhön, 140 km

From the hotel, head north to Dammersbach on the edge of the Rhön Biosphere Reserve and then to Hünfeld. In the immediate vicinity of Geisa, the observation base „Point Alpha“ fulfilled an important observation task in NATO's defence concept until the fall of the Iron Curtain. On the other side of the border were watchtowers and command towers of the GDR border troops, but apart from these units no Warsaw Pact troops were stationed directly on the border. Passing Geblar and **Dermbach** we go to Bernshausen. There you will find the Bernshäuser Kutte, a 45 m deep, circular sinkhole pond. It is considered the largest lake in the Thuringian Rhön. Stepfershausen is known as the village of fountains because of its 13 running fountains, each with its own

name and fountain sayings. Soon we reach the destination for our lunch break - the inn „Zum Schwarzen Adler“ in **Fladungen**. The inn belongs to the Franconian Open Air Museum, which is also worth a visit. We continue via **Hilders** with its half-timbered houses to **Langenbieber** at the foot of the Bieberstein Castle, which is visible from far away. From here it is only a short distance back to the hotel.

Waypoints:

Dammersbach, Allmuser Straße
Dermbach, Marktstraße
Hilders, B 278
Langenbieber, Biebersteiner Straße

**Saturday, 11.09.2021,
day of the trips**

The blue tour, Hessian Rhön, 160 km

From the hotel we follow the B 458 passing Dipperz and Dietges to Batten. Soon we reach the Black Moor. It lies in the Bavarian Rhön at the border triangle of Hesse, Thuringia and Bavaria and is part of the 243,323 hectare UNESCO biosphere reserve Rhön. With 66.4 hectares, the wetland is the largest moor complex of lowland moors and a largely untouched and intact rain moor in the Rhön. It is one of the most important raised bogs in Central Europe. The Black Moor lies on the watershed between the Rhine and Weser rivers and was included in the list of the 100 most beautiful geotopes in Bavaria in 2007. Through the Lange Rhön we continue to **Schönau an der Brend**. Passing Bad Neustadt an der Saale

the route continues via Premich on small roads to Wildflecken. We take our lunch break in **Bad Brückenau**. The Staatsbad Brückenau is a district which has had a bathing establishment since 1747. We will then take our lunch break in the restaurant Ludwigs im Dorint and Spa Bad Brückenau. After another 45 min. driving time via **Uttrichshausen** we arrive in Fulda.

Waypoints:

Batten, Bischhofsheimer Straße
Schönau an der Brend, B 279
Uttrichshausen, L2304
